Forward-Looking Statements

This Current Report on Form 8-K includes “forward-looking statements,” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements are based on various facts and derived utilizing important assumptions, current expectations, estimates and projections and are subject to known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements include, without limitation, statements relating to the impact Veritex expects its proposed acquisition of Green to have on the combined entity’s operations, financial condition, and financial results, and Veritex’s expectations about its ability to successfully integrate the combined businesses and the amount of cost savings and overall operational efficiencies Veritex expects to realize as a result of the proposed acquisition. The forward-looking statements also include statements about Veritex’s future financial performance, business and growth strategy, projected plans and objectives, as well as other projections based on macroeconomic and industry trends, which are inherently unreliable due to the multiple factors that impact economic trends, and any such variations may be material. Statements preceded by, followed by or that otherwise include the words “believes,” “expects,” “anticipates,” “intends,” “projects,” “estimates,” “plans” and similar expressions or future or conditional verbs such as “will,” “should,” “would,” “may” and “could” are generally forward-looking in nature and not historical facts, although not all forward-looking statements include the foregoing. Further, certain factors that could affect future results and cause actual results to differ materially from those expressed in the forward-looking statements include, but are not limited to, the possibility that the proposed acquisition does not close when expected or at all because required regulatory, shareholder or other approvals and other conditions to closing are not received or satisfied on a timely basis or at all, the failure to close for any

other reason, changes in Veritex's share price before closing, that the businesses of Veritex and Green will not be integrated successfully, that the cost savings and any synergies from the proposed acquisition may not be fully realized or may take longer to realize than expected, disruption from the proposed acquisition making it more difficult to maintain relationships with employees, customers or other parties with whom Veritex or Green have business relationships, diversion of management time on merger-related issues, risks relating to the potential dilutive effect of shares of Veritex common stock to be issued in the transaction, the reaction to the transaction of the companies' customers, employees and counterparties and other factors, many of which are beyond the control of Veritex and Green. We refer you to the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of Veritex's Annual Report on Form 10-K for the year ended December 31, 2017, the Annual Report on Form 10-K filed by Green for the year ended December 31, 2017 and any updates to those risk factors set forth in Veritex's and Green's Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and other filings, which have been filed with the SEC and are available on the SEC's website at www.sec.gov. If one or more events related to these or other risks or uncertainties materialize, or if Veritex's underlying assumptions prove to be incorrect, actual results may differ materially from what Veritex or Green anticipates. Accordingly, you should not place undue reliance on any such forward-looking statements. Any forward-looking statement speaks only as of the date on which it is made. Neither Veritex nor Green undertakes any obligation, and specifically declines any obligation, to update or revise any forward-looking statements, whether as a result of new information, future developments or otherwise. All forward-looking statements, expressed or implied, included in this Current Report on Form 8-K are expressly qualified in their entirety by the cautionary statements contained or referred to herein.
