## Forward-looking statements

This presentation includes certain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on various facts and derived utilizing assumptions and current expectations, estimates and projections and are subject to known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements include, without limitation, statements relating to the impact Veritex expects its acquisition of Green to have on the combined entity’s operations, financial condition, and financial results, and Veritex’s expectations about its ability to successfully integrate the combined businesses and the amount of cost savings and overall operational efficiencies Veritex expects to realize as a result of the acquisition. These forward-looking statements may also include statements about Veritex’s future financial performance, business and growth strategy, projected plans and objectives, as well as other projections based on macroeconomic and industry trends, which are inherently unreliable due to the multiple factors that impact economic trends, and any such variations may be material. Statements preceded by, followed by or that otherwise include the words “believes,” “expects,” “anticipates,” “intends,” “projects,” “estimates,” “plans” and similar expressions or future or conditional verbs such as “will,” “should,” “would,” “may” and “could” are generally forward-looking in nature and not historical facts, although not all forward-looking statements include the foregoing words. Further, certain factors that could affect future results and cause actual results to differ materially from those expressed in the forward-looking statements include, but are not limited to, the possibility that the businesses of Veritex and Green will not be integrated successfully, that the cost savings and any synergies from the acquisition may not be fully realized or may take longer to realize than expected, disruption from the acquisition making it more difficult to maintain relationships with employees, customers or other parties with whom Veritex has (or Green had) business relationships, diversion of management time on merger-related issues, the reaction to the transaction of the companies’ customers, employees and counterparties and other factors, many of which are beyond the control of Veritex and Green. We refer you to the “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” sections of Veritex’s Annual Report on Form 10-K for the year ended December 31, 2017, the Annual Report on Form 10-K filed by Green for the year ended December 31, 2017 and any updates to those risk factors set forth in Veritex’s Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and other filings with the SEC, which are available on the SEC’s website at [www.sec.gov](http://www.sec.gov). If one or more events related to these or other risks or uncertainties materialize, or if Veritex’s underlying assumptions prove to be incorrect, actual results may differ materially from what Veritex anticipates. Accordingly, you should not place undue reliance on any forward-looking statements. Any forward-looking statement speaks only as of the date on which it is made. Veritex does not undertake any obligation, and specifically declines any obligation, to update or revise any forward-looking statements, whether as a result of new information, future developments or otherwise. All forward-looking statements, expressed or implied, included in this communication are expressly qualified in their entirety by this cautionary statement. This cautionary statement should also be considered in connection with any subsequent written or oral forward-looking statements that Veritex or persons acting on Veritex’s behalf may issue. Annualized, pro forma, projected and estimated numbers are used for illustrative purpose only, are not forecasts and may not reflect actual results.

# Non-GAAP Financial Measures

---

Veritex reports its results in accordance with United States generally accepted accounting principles ("GAAP"). However, management believes that certain supplemental non-GAAP financial measures used in managing its business provide meaningful information to investors about underlying trends in its business. Management uses these non-GAAP measures to assess the Company's operating performance and believes that these non-GAAP measures provide information that is important to investors and that is useful in understanding Veritex's results of operations. However, non-GAAP financial measures are supplemental and should be viewed in addition to, and not as an alternative for, Veritex's reported results prepared in accordance with GAAP. The following are the non-GAAP measures used in this presentation:

- Tangible book value per common share;
- Tangible common equity to tangible assets;
- Returns on average tangible common equity;
- Operating earnings;
- Diluted operating earnings per share;
- Operating return on average assets;
- Operating return on average tangible common equity; and
- Operating efficiency ratio.
- Pre-tax, pre-provision operating return on average assets

Please see "Reconciliation of Non-GAAP Financial Measures" at the end of this presentation for reconciliations to the most directly comparable financial measures calculated in accordance with GAAP.

<sup>1</sup> The Company previously adjusted operating income by excluding the impact of income recognized on acquired loans. The Company no longer includes this adjustment in order to align with industry peers for comparability purposes.

<sup>2</sup> Lease exit costs, net for the three months ended March 31, 2018 includes a \$1.5 million consent fee and \$240 thousand in professional services paid in January 2018 to separately assign and sublease two of our branch leases that the Company ceased using in 2017 offset by the reversal of the corresponding assigned lease cease-use liability totaling \$669 thousand.

<sup>3</sup> During the fourth quarter, the Company initiated a transaction cost study which to date resulted in \$727 thousand of expenses paid that are non-deductible merger and acquisition expenses. As such, the \$727 thousand of non-deductible expenses are reflected in the quarter ended and year-ended December 31, 2018 tax impact of adjustments amounts reported. All other non-merger related adjustments to operating earnings are taxed at the statutory rate.
