#### Forward-looking statements

This presentation contains certain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on various facts and derived utilizing assumptions, current expectations, estimates and projections and are subject to known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements include, without limitation, statements relating to the expected payment date of Veritex's quarterly cash dividend, Veritex's business and growth strategy, projected plans and objectives. Statements preceded by, followed by or that otherwise include the words "believes," "expects," "anticipates," "intends," "projects," "estimates," "plans" and similar expressions or future or conditional verbs such as "will," "should," "would," "may" and "could" are generally forward-looking in nature and not historical facts, although not all forward-looking statements include the foregoing words. We refer you to the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of Veritex's Annual Report on Form 10-K for the year ended December 31, 2018 and any updates to those risk factors set forth in Veritex's Quarterly Reports on Form 10-Q. Current Reports on Form 8-K and other filings with the Securities and Exchange Commission ("SEC"), which are available on the SEC's website at www.sec.gov. If one or more events related to these or other risks or uncertainties materialize, or if Veritex's underlying assumptions prove to be incorrect, actual results may differ materially from what Veritex anticipates. Accordingly, you should not place undue reliance on any such forward-looking statements. Any forward-looking statement speaks only as of the date on which it is made. Veritex does not undertake any obligat

This presentation also includes industry and trade association data, forecasts and information that Veritex has prepared based, in part, upon data, forecasts and information obtained from independent trade associations, industry publications and surveys, government agencies and other information publicly available to Veritex, which information may be specific to particular markets or geographic locations. Some data is also based on Veritex's good faith estimates, which are derived from management's knowledge of the industry and independent sources. Industry publications, surveys and forecasts generally state that the information contained therein has been obtained from sources believed to be reliable. Although Veritex believes these sources are reliable, Veritex has not independently verified the information contained therein. While Veritex is not aware of any misstatements regarding the industry data presented in this presentation, Veritex's estimates involve risks and uncertainties and are subject to change based on various factors. Similarly, Veritex believes that its internal research is reliable, even though such research has not been verified by independent sources.

## Non-GAAP Financial Measures

Veritex reports its results in accordance with United States generally accepted accounting principles ("GAAP"). However, management believes that certain supplemental non-GAAP financial measures used in managing its business provide meaningful information to investors about underlying trends in its business. Management uses these non-GAAP measures to assess the Company's operating performance and believes that these non-GAAP measures provide information that is important to investors and that is useful in understanding Veritex's results of operations. However, non-GAAP financial measures are supplemental and should be viewed in addition to, and not as an alternative for, Veritex's reported results prepared in accordance with GAAP. The following are the non-GAAP measures used in this presentation:

- Tangible book value per common share;
- Tangible common equity to tangible assets;
- Returns on average tangible common equity;
- Operating net income;
- Pre-tax, pre-provision operating earnings;
- Diluted operating earnings per share ("EPS");
- Operating return on average assets;
- Operating return on average tangible common equity;
- Operating efficiency ratio;
- Operating noninterest income; and
- Operating noninterest expense.

Please see "Reconciliation of Non-GAAP Financial Measures" at the end of this presentation for reconciliations of non-GAAP measures to the most directly comparable financial measures calculated in accordance with GAAP.

## Well Positioned in Attractive Texas Markets

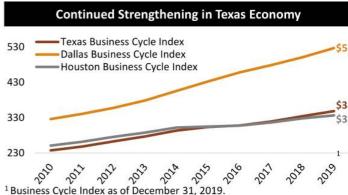

#### Overview

- Texas remains one of the more attractive states in the U.S. from a demographic and commercial opportunity perspective:
  - Population growth expected to double U.S. average
  - If Texas were a sovereign nation, it would rank the 10<sup>th</sup> largest economy in the world based on GDP, ahead of Australia, Mexico, Spain, Russia and many others
  - Pro-business environment with no state income taxes
  - Behind Texas' strong economy are 50 Fortune 500 companies headquartered in Texas, more than 1,500 foreign companies and 2.4 million small businesses
  - Texas is the #1 exporting state in the nation for the 17<sup>th</sup> consecutive year, exporting \$315 billion in goods in 2018
  - 13 million in the Texan workforce, representing the second largest civilian workforce in the U.S.
  - Texas marked its 115<sup>th</sup> consecutive month of job gains in November 2019

## Noninterest Income (Operating)

- Operating noninterest income<sup>1</sup> totaled \$7.6 million for the quarter ended December 31, 2019, a 10.2% decrease over the prior quarter.
- Decline was largely due to lower than expected SBA gain on sales and customer swap revenue.
- Service charges and fees on deposit accounts represent approximately 45% of fee income and have grown 6% since Q1 2019.

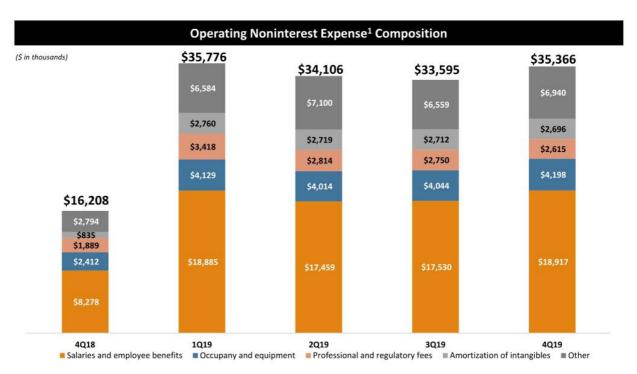

<sup>1</sup> Please refer to the "Reconciliation of Non-GAAP Financial Measures" at the end of this presentation for a description and reconciliation of this non-GAAP financial measures.

## Noninterest Expense (Operating)

- Operating noninterest expense<sup>1</sup> totaled \$35.4 million for the quarter ended December 31, 2019, a 5.3% increase over the prior quarter.
- Increase was primarily due to higher salaries and employee benefit expenses during 4Q19; 87% of such increase was driven by variable compensation expenses.

## 2020 Outlook and Focus

## Outlook and Focus Through 2020

- Maintaining strong operating earnings profile, highlighted by 2019 PTPP return on average assets of 2.24%<sup>1</sup>, operating return on average tangible common equity of 17.39%<sup>1</sup> and an operating efficiency ratio of 43.80%<sup>1</sup>.
- Retaining a strong balance sheet with significant liquidity, capital and limited credit downside given \$20.5 million in net energy exposure and \$47.8 million in remaining purchase discount on acquired loans.
- Operating in two of the best markets in the country, Dallas-Fort Worth and Houston, two large markets with favorable market position and scarcity value.
  - Focused on:
    - Continuing growth momentum
    - Maintaining asset quality
    - Returning excess capital to shareholders through share repurchases and common stock dividends

Attractive valuation at  $11.9^2$  times 2020 consensus earnings.

## **Analyst Recommendations**

"We continue to believe stable credit trends are key to improving VBTX's trading valuation towards peer levels in 2020. Our rating is Overweight and our price target of \$34 represents a 14x multiple on our 2021 EPS forecast of \$2.40."

- Stephens Inc.

"VBTX continues to demonstrate strong earnings power and a profitability profile, generating a 1.4+ ROAA and 16%+ ROTCE... We view 2020 as somewhat of a transition year, with a decline in purchase accounting benefits a headwind, before giving way to a strong growth outlook for 2021. Maintaining BUY rating with a \$33 PT."

- D.A. Davidson & Co

"We still like VBTX's position in the Dallas MSA as a primary beneficiary of recent disruption from recent M&A activity in Dallas. From an earnings standpoint, 2020 may be more of a transition year as VBTX overcomes the headwind of lower loan discount accretion income in 2020 and the costs of investments it is making in its franchise to support future growth. We maintain our Overweight rating on the shares with a \$32 PT."

- Piper Sandler

"Given the recent M&A disruption occurring in Texas metro markets over the past couple of quarters, we like the M&A/growth optionality VBTX possesses to either add scale and grow above the \$10 bn in asset threshold or to sell to a strategic buyer. We continue to rate the shares Outperform with a \$31 PT."

- Keefe, Bruyette & Woods, Inc.

"We are maintaining our Outperform rating on VBTX shares. Our \$31 target price assumes shares trade at ~12.5x 2021E EPS, a 5% discount to its peer group average. It also assumes shares trade at 1.95x 4Q20E TBV, in line with the peer average... We believe an in-line multiple with peers is still warranted given solid growth prospects, strong profitability profile, and increasing franchise/scarcity value."

<sup>1</sup> Loss on sale of disposed branch assets for the year ended December 31, 2019 and for the three months ended June 30, 2019 is included in merger and acquisition expense in the condensed consolidated statements

to the Tax Cuts and Jobs Act rate change on deferred tax assets resulting from the IRS audit settlement. The net IRS settlement was offset by various discrete, non-recurring tax expenses totaling \$0.6 million.

<sup>2</sup> Lease exit costs, net for the year ended December 31, 2018 includes a \$1.5 million consent fee and \$240 thousand in professional services paid in January 2018 to separately assign and sublease two of our branch

leases that we ceased using in 2017 offset by the reversal of the corresponding assigned lease cease-use liability totaling \$669 thousand.

3 A 2019 and 2018 transaction cost study were completed during the fourth quarter of 2019 and 2018, respectively, resulting in \$1,468 thousand and \$3,460 thousand of expenses paid that are non-deductible merger and acquisition expenses for the year ended December 31, 2019 and 2018, respectively. As such, \$308 thousand and \$727 thousand is the tax impact of these non-deductible expenses that are reflected in the year

ended December 31, 2019 and December 31, 2018 tax impact of adjustments amounts reported, respectively. All other adjustments to operating net income are taxed at the statutory rate.

<sup>5</sup> Discrete tax adjustments of \$965 thousand were recorded during the fourth quarter of 2019 primarily due to the Company recording a net tax benefit of \$1.6 million as a result of the Company settling an audit with the IRS. The Company released an uncertain tax position reserve that was assumed in the Green acquisition resulting in a \$2.2 million tax benefit, offset by tax expense totaling \$598 thousand that were recorded due
