3rd Quarter 2019

Safe Harbor

Forward-looking statements

This presentation contains certain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on various facts and derived utilizing assumptions, current expectations, estimates and projections and are subject to known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements include, without limitation, statements relating to the impact Veritex Holdings, Inc. ("Veritex") expects its acquisition of Green Bancorp, Inc. ("Green") to have on its operations, financial condition and financial results and Veritex's expectations about its ability to successfully integrate the combined businesses of Veritex and Green and the amount of cost savings and overall operational efficiencies Veritex expects to realize as a result of the acquisition of Green. The forward-looking statements in this presentation also include statements about the expected payment date of Veritex's guarterly cash dividend, Veritex's future financial performance, business and growth strategy, projected plans and objectives, as well as other projections based on macroeconomic and industry trends, which are inherently unreliable due to the multiple factors that impact broader economic and industry trends, and any such variations may be material. Statements preceded by, followed by or that otherwise include the words "believes," "expects," "anticipates," "intends," "projects," "estimates," "plans" and similar expressions or future or conditional verbs such as "will," "should," "would," "may" and "could" are generally forward-looking in nature and not historical facts, although not all forward-looking statements include the foregoing words. Further, certain factors that could affect future results and cause actual results to differ materially from those expressed in the forward-looking statements include, but are not limited to, the possibility that the businesses of Veritex and Green will not be integrated successfully, that the cost savings and any synergies from the acquisition may not be fully realized or may take longer to realize than expected, disruption from the acquisition making it more difficult to maintain relationships with employees, customers or other parties with whom Veritex has (or Green had) business relationships, diversion of management time on integration-related issues, the reaction to the acquisition by Veritex's and Green's customers, employees and counterparties and other factors, many of which are beyond the control of Veritex. We refer you to the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of Veritex's Annual Report on Form 10-K for the year ended December 31, 2018 and any updates to those risk factors set forth in Veritex's Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and other filings with the Securities and Exchange Commission ("SEC"), which are available on the SEC's website at www.sec.gov. If one or more events related to these or other risks or uncertainties materialize, or if Veritex's underlying assumptions prove to be incorrect, actual results may differ materially from what Veritex anticipates. Accordingly, you should not place undue reliance on any such forward-looking statements. Any forward-looking statement speaks only as of the date on which it is made. Veritex does not undertake any obligation, and specifically declines any obligation, to update or revise any forward-looking statements, whether as a result of new information, future developments or otherwise. All forward-looking statements, expressed or implied, included in this presentation are expressly qualified in their entirety by this cautionary statement. This cautionary statement should also be considered in connection with any subsequent written or oral forward-looking statements that Veritex or persons acting on Veritex's behalf may issue.

This presentation also includes industry and trade association data, forecasts and information that Veritex has prepared based, in part, upon data, forecasts and information obtained from independent trade associations, industry publications and surveys, government agencies and other information publicly available to Veritex, which information may be specific to particular markets or geographic locations. Some data is also based on Veritex's good faith estimates, which are derived from management's knowledge of the industry and independent sources. Industry publications, surveys and forecasts generally state that the information contained therein has been obtained from sources believed to be reliable. Although Veritex believes these sources are reliable, Veritex has not independently verified the information contained therein. While Veritex is not aware of any misstatements regarding the industry data presented in this presentation, Veritex's estimates involve risks and uncertainties and are subject to change based on various factors. Similarly, Veritex believes that its internal research is reliable, even though such research has not been verified by independent sources.

Non-GAAP Financial Measures

Veritex reports its results in accordance with United States generally accepted accounting principles ("GAAP"). However, management believes that certain supplemental non-GAAP financial measures used in managing its business provide meaningful information to investors about underlying trends in its business. Management uses these non-GAAP measures to assess the Company's operating performance and believes that these non-GAAP measures provide information that is important to investors and that is useful in understanding Veritex's results of operations. However, non-GAAP financial measures are supplemental and should be viewed in addition to, and not as an alternative for, Veritex's reported results prepared in accordance with GAAP. The following are the non-GAAP measures used in this presentation:

- Tangible book value per common share;
- Tangible common equity to tangible assets;
- Returns on average tangible common equity;
- Operating net income;
- Pre-tax, pre-provision operating earnings;
- Diluted operating earnings per share ("EPS");
- Operating return on average assets;
- Operating return on average tangible common equity;
- Operating efficiency ratio;
- Operating noninterest income; and
- Operating noninterest expense.

Please see "Reconciliation of Non-GAAP Financial Measures" at the end of this presentation for reconciliations of non-GAAP measures to the most directly comparable financial measures calculated in accordance with GAAP.

- Average cost of interest-bearing deposits, excluding deposit premium accretion, at a blended rate has decreased 15 basis point from June 2019 primarily as a result of cuts in money market rates and our strategy to replace high cost funding.

Monthly Cost of Interest-bearing Deposits and FHLB Borrowings²

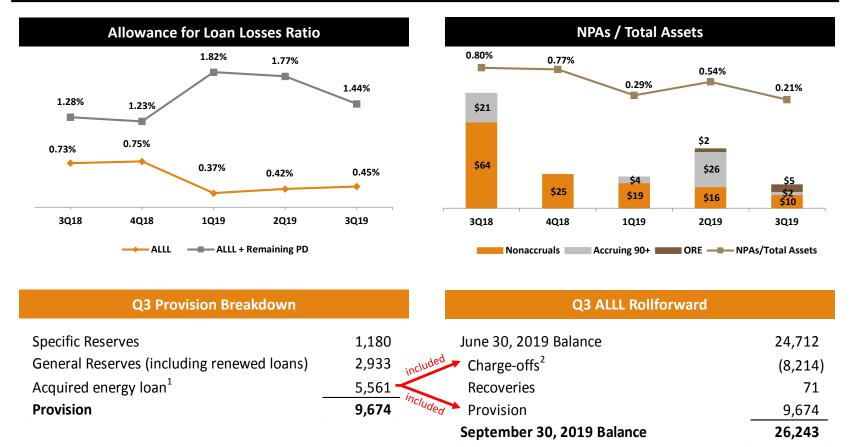

1 Average costs of total deposits excludes \$158, \$132, \$2,731, \$1,355 and \$1,210 of deposit premium accretion as of 3Q18, 4Q18, 1Q19, 2Q19, and 3Q19, respectively.

Strong Asset Quality

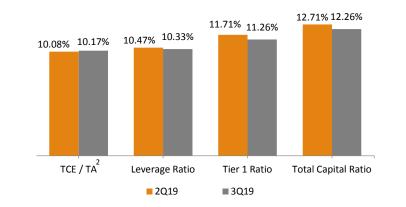

¹ Charge-off related to a commercial energy loan relationship acquired from Sovereign Bancshares, Inc. in 2017. The relationship consists of a \$7.8 million loan to an independent oil and gas exploration company that filed for bankruptcy protection in 2018 and recently entered into a sales process pursuant to Section 363 of the Bankruptcy Code. The \$5.6 charge-off of this commercial loan relationship (calculated as full charge-off of \$6.1 less a specific reserve of \$253 thousand less a purchase discount of \$161 thousand) results in the Company exiting the relationship in full.

² Excluding the \$5.6 energy loan provision, the remaining charge-offs recorded during the third quarter of 2019 were fully reserved against in the second quarter of 2019.
